COMPANY PROFILE

2019

Introduction

We are a reputed construction company with more than 21 years of sound experience. The company has a corporate office at 43 T.H.D.C Colony Dehrakhas Dehradun.

The company has been handling a wide range of jobs such as multi storied Buildings, Township, Factories, Large Residential Complexes Club, Apartments, Technical Building and External water supply , Plumbing, Electrification, Site Development and Road Development

The company thus possess a wide range financial track record and is in a position to offer complete services of a project.

Our Mission

Our mission is to bring about a global benchmark in terms of project technology, value addition, customer service, corporate social responsibility and ethical standard.

Our Vision

Our vision is to contribute notably and lead Indian infra-structural development across all segments of the business.

Our Services

Our infrastructure is based on strong and fine knowledge of architectural design, engineering skills and construction technology. The aspect of cost effective designing and implementation is possible because of the in house Architectural & Engineering wing. This also makes co ordination and cooperation among the technical team, very flexible. The Company combines the experience and sagacity of the older generation with the dynamism and motivation of the younger one. Its strong foundations are reflected in its team of dedicated and competent engineers, proficient supervisors and skilled workers.
